

This is the way me and about 25 others I know have learned the Tech and General tests. Read the guide, learn the answers to the test, take a practice test twice daily until you are hitting 85% consistently.

Practice test sites:

<http://qrz.com/hamtest/>

<http://hamexam.org/>

<http://www.hamtesting.com/ptChoose.php>

There are also phone apps with the test. I used these several times a day, especially when I was waiting for somebody and had a spare ten minutes. Test is third Saturday at Red Cross building at 2201 19th, 10:00 am.

There is an additional test at the clubhouse, half mile west from Hwy 87 on 98th street. First Tuesday, 7:30pm.

Bring \$15 per test you want to take, pen, pencil, copy of SSN, copy of Drivers License, copy of ham license if you already have one.

For more info about the club, see the website:

www.k5lib.org

Holler if you have any questions.
